# 昭源黑體
# 與上游字體字形差異對照

## Glyph Differences Between Chiron Hei HK and Upstream

**v2.516**

---

**上游字體 Upstream**

思源黑體（香港） Source Han Sans (Hong Kong) v2.004

**專案網頁 Project website**

https://github.com/chiron-fonts/chiron-hei-hk

# 目錄

一般説明 ..... 4
注意事項 ..... 6
一、更改映射字元（Big5/HKSCS 字碼區）(2,513) ..... 8
二、重繪字元（Big5/HKSCS 字碼區）(2,940) ..... 176
三、更改映射字元（非 Big5/HKSCS 字碼區）(150) ..... 372
四、重繪字元（非 Big5/HKSCS 字碼區）(2,105) ..... 382
五、更改映射或重繪特殊字元或符號 (104) ..... 523
六、新增字元 (1,610) ..... 530

# TABLE OF CONTENTS

Preface ..... 5
Notice ..... 7
Section 1. Remapped Characters (Big5/HKSCS Codepoints) (2,513) ..... 8
Section 2. Redesigned Characters (Big5/HKSCS Codepoints) (2,940) ..... 176
Section 3. Remapped Characters (Non-Big5/HKSCS Codepoints) (150) ..... 372
Section 4. Redesigned Characters (Non-Big5/HKSCS Codepoints) (2,105) ..... 382
Section 5. Remapped or Redesigned Special Characters or Symbols (104) ..... 523
Section 6. Character Additions (1,610) ..... 530

# 一般説明

1. 本文件旨在列出昭源黑體與上游字體（思源黑體香港版）在字形上有差異的字碼。有關昭源黑體的説明以及兩款字體在字形以外的不同，請參閱昭源字體網站(https://chiron-fonts.github.io/)。
2. 文件按照字形修改方式（更改映射/重繪/新增）和字碼種類（是否屬於 Big5+HKSCS 字集）將有差異的字碼分部列出。差異欄的顯示格式如下：
   - 第一行包含該字元的基本資料，包括（一）字元在該部份的編號、（二）字元的 Unicode 字碼和（三）字元在 Unicode 標準下的所屬字區。假如字元屬於 Big5 或 HKSCS 字碼區也會分別以 “B5” 或 “HK” 標示。
   - 第二行是思源黑體的本來字樣（新增字元不設此行），分別以字體的 ExtraLight、Regular 和 Heavy 字重顯示。
   - 最後一行是昭源黑體的字樣，字重式樣次序同上。字樣下方或會有一些技術性資料，其中左下方的是更改映射後昭源黑體最終使用到的字圖名稱，右下方所顯示的是該字碼在本字體的 CID。

# PREFACE

1. This document lists the differences in glyph shapes between Chiron Hei HK and the upstream font (Source Han Sans Hong Kong). For information about their differences other than glyph shapes, please refer to the Chiron Fonts website (https://chiron-fonts.github.io/, in Chinese only).
2. Codepoints with differences in glyph shapes are listed according to the modification method (remapping/redesign/adding) and the type of codepoint (whether it belongs to the Big5+HKSCS character set). The format of the difference column is as follows:
   - The first line contains the basic information of the character, including (a) the character's number in that section, (b) the character's Unicode codepoint, and (c) the character's Unicode block. If the character belongs to the Big5 or HKSCS codepoint area, it will be marked with "B5" or "HK" respectively.
   - The second line is the original character sample of Source Han Sans (not applicable to added characters), displayed in the ExtraLight, Regular, and Heavy weights of the font.
   - The last line is the character sample of Chiron Hei HK, in the same order of font weights. There may be some technical information below the character sample, where the bottom left corner shows the glyph name used in Chiron Hei HK after remapping, and the bottom right corner shows the CID of the character in this font.

# 注意事項

1. 本文件所列出的主要是在中文環境會用到的字元，不包括昭源黑體因為嵌入整套 Source Sans 3 字體所增收的字元，也不包括在嵌入 Source Sans 3 時因採用了不同的縮放率所造成的字圖差異。
2. 「更改映射或重繪特殊字元或符號」一節收錄的是在 Unicode 不屬於「中日韓統一表意文字」字區的碼位，包括標點符號、一般符號、《康熙字典》部首等。本文件以字碼為單位，所以雖然《康熙字典》字區的某些字元外觀跟日常使用的字元看來並無不同，但由於碼位不同（例如《康熙字典》字區的「女」（作部首用）的碼位是 U+2F25，而日常使用、屬中日韓統一表意文字基本區的「女」字字碼則為 U+5973），所以在本文件中會分開列出。
3. 不屬 Big-5 或 HKSCS-2016 字表的中文字碼不在昭源字體的正式支援範圍，即使有重新映射動作，也可能只是在其他地區選擇一個最接近本字體偏好的字樣。

# NOTICE

1. This document lists the characters that are commonly used in Chinese environments. It does not include characters added to Chiron Hei HK because of the inclusion of the entire Source Sans 3 font, nor does it include differences in glyph shapes caused by the use of different scaling rates when embedding Source Sans 3.
2. The section “Remapped or Redesigned Special Characters or Symbols” includes codepoints that are not in the “CJK Unified Ideographs” block of Unicode, including punctuation marks, general symbols, and radicals from the Kangxi Dictionary. This document is organized by codepoint, so even though some characters in the Kangxi Dictionary block may look the same as everyday characters, they are listed separately in this document because of their different codepoints (e.g. the codepoint for “⼥” in the Kangxi Dictionary block is U+2F25, while the codepoint of “女” for everyday use is U+5973 which is in the CJK Unified Ideographs block).
3. Chinese characters that are not in the Big-5 or HKSCS-2016 character sets are not considered officially supported by this font. Even if there is a remapping action the character may only be the chosen because it is closer to the preferred shape than the default mapping but may not fully comply with the font's stroke selection.

一、更改映射字元（Big5/HKSCS 字碼區）(2,513 組)
